

Stainless steel embedding molds

IVD In vitro diagnostic – medical device

CND number: W05030599

General features

Varied measures steel tiles for inclusion of histological paraffin samples.

Code	Model	Size (mm)	Packaging
07-BM15155	Bio Mold	15 x 15 x 5	12 pcs
07-BM24245	Bio Mold	24 x 24x 5	12 pcs
07-BM30245	Bio Mold	30 x 24 x 5	12 pcs
07-BM37245	Bio Mold	37 x 24 x 5	12 pcs
07-BM775	Bio Mold	7 x 7 x 5	12 pcs
07-MBM6	Mega Mold	33 x 24 x 12	6 pcs
07-7010	Super Mega Mold	65 x 45 x 15	10 pcs

Manufacturer: **Bio-Optica Milano S.p.A.**

Functional features

Material: stainless steel.

Bio Molds are reusable products. To guarantee the cleaning, we advise to clean them with xylene or d-limonene, after use, to eliminate all paraffin remnants.

Validity date: not applicable.

For the characteristics of the product, particular precaution for handling and storage are not necessary.

The embedding moulds are packed in a cellophane bag, enough for guaranteeing integrity and cleaning until use.
