

Sterican®

Single-use needles for injection  
and aspiration

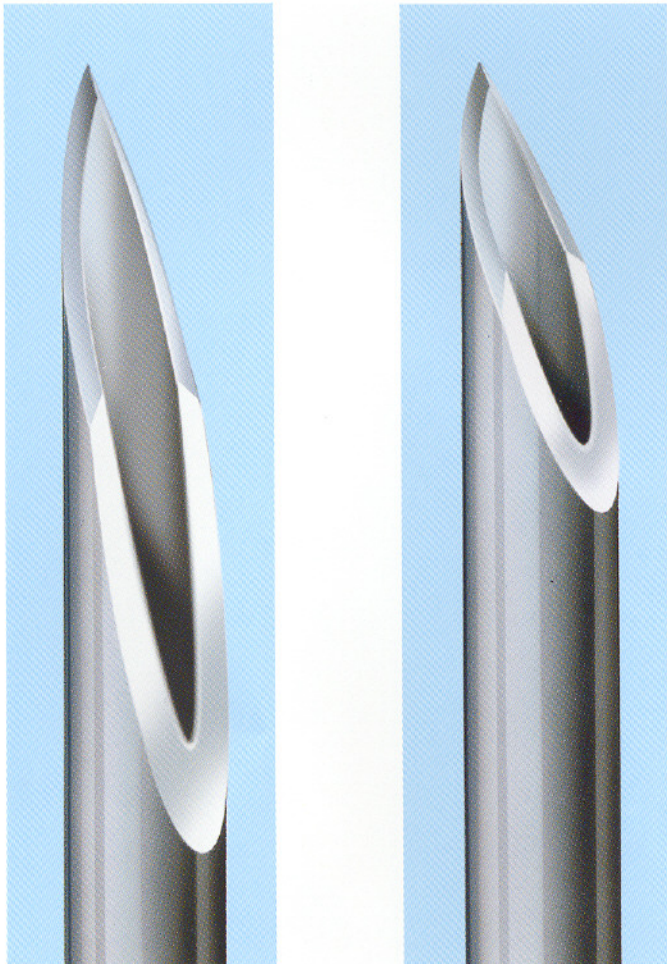

A complete range of needles with the  
diameters and lengths for every indication

**B | BRAUN**

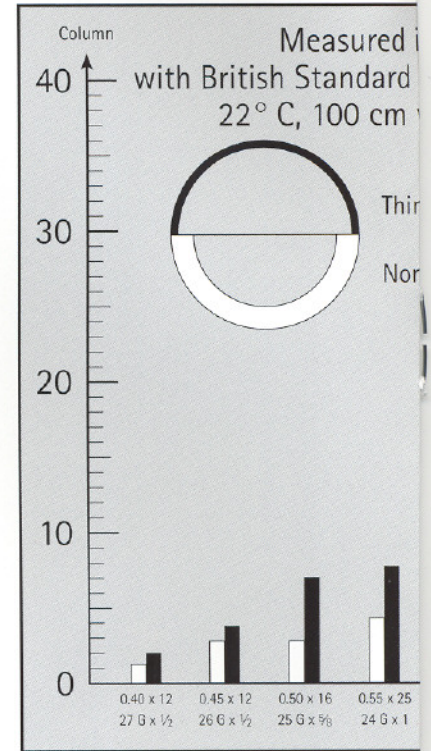

Single-use needles for individual indications conforming to ISO 7864/DIN 13097

- 3-facet bevel**
  - for minimal pain upon puncture
- Bevel length according to indication**
  - marked with symbol for easier identification
- Long bevel**  **BL/LB**
  - for easy venipuncture of normal veins
- Short bevel**  **BC/SB**
  - for venipuncture of difficult-to-access veins
- Posterior of bevel eye gently rounded**
  - reduces tissue trauma
- Needle made of stainless chromium nickel steel**
  - with extremely smooth surface and light silicone coating

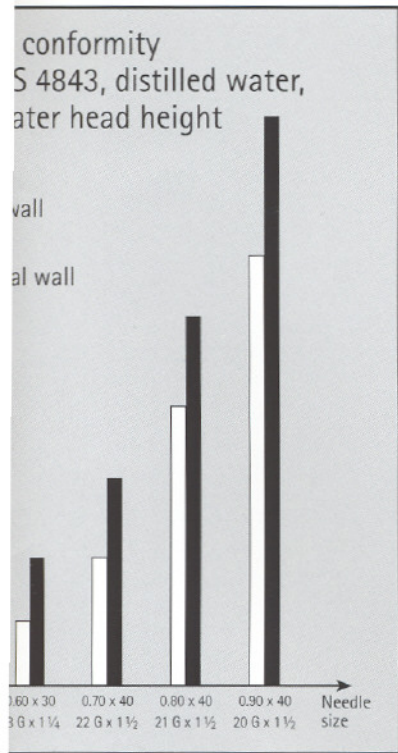

**Flow rate comparison:**

Standard/hypodermic needle range

Special needles for special indications

Transparent Luer Lock  
plastic hub made of  
polypropylene

- visualization of blood rapidly shows successful venipuncture

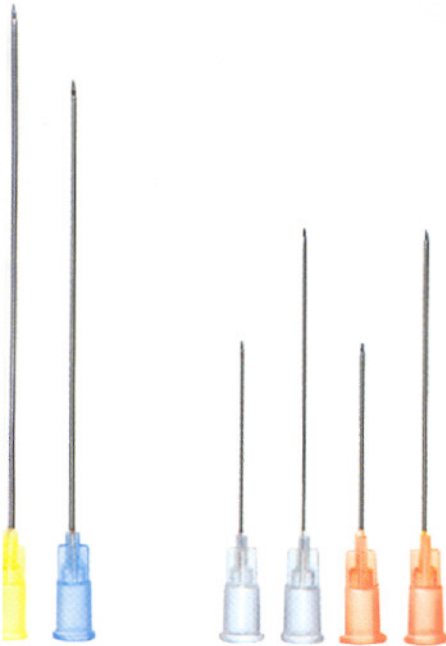

Colour-coded hub

- identifies the outer diameter of the needle, conforms to ISO 6009

Colour-coded dispenser box

- for easier identification and selection of the different sizes
- dispenser boxes containing 100 needles
- bar coded for inventory control

Dental needles

Single-peel packaging

- hygienic removal of sterile needle
- easy-grip peel-off tab

# Sterican®

## Sales packs

Pack size 1000 (10 boxes of 100) Sterican® needles conforming to ISO 7864 and Sterican® Z needles conforming to ISO 7885
